EASTERN DATES TO OCTOBER 29.

EASTERN STATES.

Horses Dying.

NEW YORK, Oct. 29.—The horse disease continues, and the number of fatal cases has increased. The deaths Saturday and Sunday were 54; on Monday, 96. The Third and Fourth Avenue cars were stopped to-day by the present dearth of horses.

Horses Recovering.

NEW YORK, Oct. 29.—Stages are beginning to be more frequent, and horses are improving.

Reports from private stables are more cheerful. Horses up town are beginning to relish their food. A number of South American ponies arrived here yesterday in perfect health, and half of them this morning exhibited symptoms of the disorder.

Progress of the Disease.

PHILADELPHIA, Oct. 29.—About thirty horses are reported to be sick in various stables, about half of these being in stables of the passenger car lines.

BALTIMORE, Oct. 29.—The horse disease is fully developed. Fifty cases were reported by one veterinary surgeon.

Boston reports from the east, show that the horse disease is gradually progressing in a mild form.

CLEVELAND, Oct. 29.—One of the livery stable keepers, reports twenty five new cases.

COLUMBUS, Oct. 29.—Two horses were attacked by the epidemic yesterday, and another to-day.

PHILADELPHIA, Oct. 29.—The horse disease here is very mild; the cases reported yesterday are improving.

PORT JERVIS, N. Y., Oct. 29.—The horse disease has appeared in this vicinity. The Canal teams are the principal sufferers.

Death of the Oldest Bank President and the Oldest Mason.

CHESTER, Oct. 29.—Hon. N. Fullerton, President of the Bellows Falls National Bank, died here this morning, in his 98th year. He was the oldest Bank President, and the oldest Mason in the United States.

Particulars of the Texas Raid.

WASHINGTON, Oct. 29.—References were made in our dispatches yesterday, to the raid by a party of Americans, who, besides killing the Alcalda, completely destroyed the town. The following particulars have been obtained from the War Department: On September 27, a courier arrived from Reservation, a town about forty miles above here, on this side of the river, who left that morning at daybreak. The village was attacked by about thirty Americans, who opened a very lively fire at or near the Alcalda's house, in said village, and who is probably killed. The house was set on fire after the attack, as were also other houses, in presence of Mexicans from the other side. The U. S. Consul arrived the same day, and wrote to Col. Morrison as follows: "By another courier who has just arrived from above, what I had the honor to communicate, is confirmed. The men who assaulted Reservation are suspected to be Americans, negroes and Indians. The leader of the band is a former resident of the village." On receipt of this intelligence, orders were issued to the commanding officer to proceed with a company of the Nineteenth cavalry, to Reservation, in order to obtain information about the attack, and arrest the guilty parties. Upon arriving there, Lieut. Cusick ascertained that a party of sixteen Americans, disguised as Indians, had crossed the Rio Grande and attacked and killed the Alcalde and burned his house to the ground, with several other houses. They had killed two other Mexicans and wounded a woman and set fire to the Alcalde's house in order to get him out. When he was forced out by smoke they shot him. After burning the town the party crossed the river. Lieut. Cusick with cavalry followed the trail of the party some miles without coming up with them or obtaining any knowledge of their movements. Finally, when the horses gave out, Lieut. Cusick's command was compelled to return.

WASHINGTON CITY.

Appointment of Consul General at Rome.

WASHINGTON, Oct. 29.—William B. Crosby, of New York, is appointed Consul General at Rome. The proclamation concerning duties has been withheld at the request of the Minister to afford him an opportunity of making inquiry of his Government relative to the subject. It may, however, be issued to-morrow.

Cadet Briggs' Case.

WASHINGTON, Oct. 29.—Strong efforts will be made for the restoration of cadet midshipman Briggs, recently dismissed from the Naval Academy for assaulting cadet midshipman Converse, (colored) as the authorities are not disposed to reinstate him. The assault was without provocation.

The forthcoming report of the Postmaster General will show the expenses of the Department incurred during the past year, as compared with the preceding year, to be about two and a quarter million dollars more, mainly for increased transportation and other postal facilities, foreign and domestic, and the increased receipts have nearly kept pace with the expenses, the increase being a little over two millions.

BY ATLANTIC CABLE.

From London.

LONDON, Oct. 29.—Hon. John Pakington, in a lecture at Strowbridge last night, alluded to the Alabama claims, declaring that it was painfully humiliating to apologize for wrongs never committed and pay for injuries steadily denied. In disposing of the San Juan boundary question, however, he saw no reason for censuring Government.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Oct. 30.—The *John L. Stephens* arrived from Portland this morning, several hours behind time, owing to the fogs along the coast.

A movement is on foot here to run candidates at the election, to fill the places of officers whose terms were extended by the last Legislature. It is claimed by the movers that the action of the Legislature was illegal, that it is proper to elect at the coming election, and that whoever receives a majority of the votes cast, will be entitled to the offices. The movement is rather quiet. It has not come to the notice of any of the papers, and is not in the interest of any political organization.

There will be no evening session of the Board of Brokers to-day. Stock operators wish to witness the race at Alameda, which promises to be good, the weather being fine, and the track and animals in excellent condition.

The final parade of the Grant Invincibles comes off Saturday evening. The Club has decided not to visit Sacramento, as was proposed.

Overland passenger, P. T. Collins, Portland.

First heat was won by Lucy, time 2.25¼.

A Sacramento dispatch of this afternoon says the McLaughlin blunder of last night is the town talk to-day to the exclusion of everything else. The jury having returned him guilty of murder in the first degree he was allowed to leave the court room unaccompanied by an officer. He visited saloons about town for two hours, and since then has disappeared. The Judge of the District Court stated that the defendant had, after his first trial, been admitted to bail by the Supreme Court, and he had no authority to order him arrested. Chief Justice Wallace being appealed to this morning declared such ruling altogether without precedent, and that any proceedings admitting to bail were set aside when the verdict was rendered by the jury, and the District Judge should have promptly ordered his arrest.

INTERIOR CALIFORNIA DISPATCHES.

LOS ANGELES, Oct. 30.—Loss by the fire last night foots up over $50,000. Packard's distillery, malt house and warehouses, with contents, including barley, rye, grapes and several thousand gallons of spirits, were totally destroyed without a dollar's insurance.

The Democratic club have pronounced for Connor and Adams. The disaffection seems to be spreading in the Democratic Liberal Republican ranks.

Agents of Stanford & Co. are making a canvass of the county, holding meetings in the principal towns. The railroad question is considered the most important issue in the coming election.

LAST NIGHT'S DISPATCHES.

EASTERN DATES TO OCTOBER 30.

More About the Epidemic.

NEW YORK, Oct. 30.—The weather to-day is cool and pleasant, and very favorable to the prevailing epidemic, which it is now thought has reached the crisis.

CONCORD, N. H., Oct. 30.—The horse disease has appeared, but only in a mild form. There is no improvement in the horse epidemic in Oswego. Over two thirds of the canal horses are affected.

BOSTON, Oct. 30.—More horses appear on the streets to-day than for several days past, but far from enough to meet the demand. The disease is evidently subsiding.

PHILADELPHIA, Oct. 30.—Several more cases of horse disease were reported this morning in the Market street railroad stables.

PROVIDENCE, Oct. 30.—All horses were withdrawn this noon from street railways, nearly all becoming weak and spiritless. Some stables report horses improving.

Not Disguised.

NEW YORK, Oct. 30.—Ex-Consul Butler writes that he is in London under his own name.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Oct. 30.—As a race, the contest between Lucy and Occident this afternoon was not much, but the crowd present was a grand success. Various estimates place those present at somes 9,000 to 11,000. The true number would not vary much from 10,000. It was decidedly the largest gathering ever witnessed in the State at any such exhibition. There was but little sparring for the first heat, the animals getting off on the third trial. Occident broke once very badly, and Lucy won the heat in the very poor time of 2:25¼, Occident lapping her wheel. Half a mile of the track was very loose, spongy and bad. On the portion Occident broke badly. After half a dozen attempts the horses made a good start for the second heat. Occident broke badly at the first quarter and lost ground. He then broke as bad at the half and lost more. Lucy won the heat in 2:20, Occident being distanced by about two lengths. This heat finished the race.

After the trot there was a pacing race between Billy Mayo and Defiance, but only about half the crowd evinced a desire to witness that. Defiance won the first heat by a length in 2:24½.

Halliday & Co. have just completed the first submarine cable ever manufactured in this State. It is intended for use on the northern coast of this continent.

A fire at the German hospital on Brannan street this afternoon caused damage to the extent of about $1,500. Accidental.

SAN FRANCISCO, Oct. 30.—The Soldiers' and Sailors' Club, (Liberal Club) and other Greeley organizations, to the number of a thousand or more, paraded the streets to-night with music and fine uniforms, making a good appearance.

The pacing between Defiance and Mayo at Alameda this afternoon was mile heats, best 2 in 3. Mayo won the second heat in 2:20¼, and Defiance the third heat in 2:33½.

Two of the boys who were burned yesterday by phosphorus are considered to be in a critical condition.

It was a good-natured crowd that attended the trot to-day, and the people generally made the most fun they could out of a bad job. Many, however, growled some. Some think Eoff should have made his horse do better. Others say Occident is the best horse, but only lacks training and experience. Many horsemen are willing to bet their all that with another year's training Occident can beat the time of either of the mares. They say that, considering the condition of the track, even Occident being distanced in 2:20, is not bad for a green horse. While trotting squarely, Occident outfooted the mare, but he lost frightfully by his breaks. It will be borne in mind, that the Bay District Agricultural Society, insured the owners of the Maid and Lucy $25,000 to bring their horses here. It is roughly estimated that the Society's receipts over current expenses at the three races have been $30,000, which leaves the Society comfortable after fulfilling its obligations toward Dubie and Hickox. While the crowd at the races would have greatly preferred to see Occident win every heat, the final triumphs of Lucy was greeted with as hearty cheers as if she had been the favorite from the start.

It is reported in horse circles that Governor Stanford has a standing offer of $50,000 for his horse.

THURSDAY MORNING, OCTOBER 31, 1872.

Another Veto.

In 1870 the Democratic Legislature passed an act entitled "An act to protect litigants," but which should have been entitled "An act to tax litigants, counties, cities, and towns for the purpose of supporting Democratic newspapers." By that act certain Democratic papers were given a monopoly of all the legal advertisements required either in the course of proceedings in the courts, or in the government of the counties, towns and cities of the State, and were allowed to charge and collect therefor about twice what the same advertisements would have cost, in case they could have been published in other papers. At its recent session the Legislature repealed this unjust law, and on the passage of the repealing act some of the Democrats themselves voted with the Republicans, so strongly did the bill address itself to their sense of justice. The original act, it was generally conceded, gave the litigant papers the right to charge fees so much higher than the usual fees for such work, as to amount to neither more nor less than legalized extortion.

His Excellency, the Governor, has vetoed the repealing act. His message giving the reasons for his disapproval, which was published in Tuesday's *Herald*, is brief, if not brilliant. Leaving out the formal parts, we copy the document in full:

> The act of October 24, 1870, provides that the proprietor of a newspaper designated as the official paper of any county, shall file with the County Clerk of said county a written stipulation accepting the conditions of the act, together with an approved bond for the faithful performance of the legal and judicial advertising for said county, and when such action on the part of a proprietor of a designated newspaper has taken place, "the Governor shall, without delay, by proclamation, fix point and confirm said newspaper as the medium through which all judicial and legal advertisements for said county shall be published for the term for which he may have been elected."
>
> If this proceeding amounts to a franchise, vested for the period named, as has been held by high judicial authority in other States, under like acts; or, if it is in the nature of a contract, and rights have vested under that contract, a repeal of the law could not divest those rights nor annihilate or impair the privileges so acquired. Conceiving that in any event the repeal of said act of October 24, 1870, before the period expressed for its termination, will throw the litigation of the State into confusion and tend to create a multiplicity of collateral suits and proceedings to determine the rights of publishers and litigants, expensive and disastrous to all parties connected therewith, I have concluded to withhold my signature from said bill.

It is manifest from the language of this message, that the Governor does not himself believe that "this proceeding amounts to a franchise, vested for the period named," or he would have stated the proposition without an "if," and put his veto squarely upon that ground—especially as his Excellency is known to have a "strong weakness" for annulling the action of the Legislature on constitutional grounds. We should have been greatly obliged, and we believe the people of the State would too, if his Excellency had cited the particular case in which "high judicial authority in other States, under like acts," has held the office of litigant printer to be a "franchise vested for the period named." We had heard of this proposition being advanced by some briefless lawyer, but we are not aware, and we doubt if anybody else is, that so shallow a notion has been seriously entertained by any "high judicial authority."

It was not unconstitutional for the Democratic Legislature of 1870, to pass an act legislating out of office, the Police Judge, and Marshal of the city of Portland, when the term for which they had been elected by the people, had barely commenced to run; but it *was* unconstitutional for the *Republican* Legislature of 1872, to legislate out of office certain Democratic publishers of Oregon, appointed by Governor Grover, before their terms had expired! If this is his Excellency's idea of constitutional law, his theory and practice are consistent: if not an explanation would be in order.

Hon. W. D. Hare, Republican candidate for Elector, is making the campaign alone. Judge Shattuck has not put in an appearance since the first meeting, which was held at Hillsboro on the 21st instant. One set-to seems to have satisfied the Judge that even his ability,—which all acknowledge,—is not sufficient to maintain the unequal contest against both ability and right. The people are not ready to surrender their Government into the hands of the Democracy, when it comes under the guise of Liberal Republicanism, any more than they would be to hand it over to the declared Bourbons themselves.

Mr. Hare is having fine meetings, wherever he is announced to speak. On the 26th inst. he addressed the people of Corvallis, and his address was received with enthusiastic applause. His speeches are universally spoken of in terms of praise by those who have heard them.

The Greeleyites of Southern Oregon are like the Democracy of New York, "as quiet as kittens." A prominent Republican out there writes us that there is no heart or hope in the ranks of the Fusionists south of the Calapooia mountains. Hon. J. F. Gazley is making the canvass without opposition. His great popularity, together with the utter rout of the Greeleyites in the Eastern States, has proved too much for the courage of the opposition in his district, and they have given him a wide berth. The Greeleyite who could measure lances with Gazley, even under the most favorable circumstances, does not live in Oregon; and it speaks well for their discretion that the stumpers of that party avoid a meeting with him in the present condition of affairs.

A gentleman of this city has just received a letter dated October 16, from a friend who resides in the interior of New York, showing the State of the political contest there. The writer says: "Greeley is playing out very fast in this country, and I think he will lose his own State by at least fifteen thousand. The Democrats have lost all hope here, and are as quiet as kittens since the elections of Pennsylvania, Ohio, Indiana and Nebraska have done so much for Grant."

E. J. Golladay is renominated for Congress by the Democrats of the Nashville, Tennessee, District. He is the same person who urged the Southern people to support Greeley for President, because he had reason to know that if Greeley should be elected he would take steps to have the Government pay the ex-slaveholders of the South for the slaves they lost by their rebellion.

A correspondent at Baker City writes that the straight Democratic ticket in that county is likely to poll more votes than the Greeley ticket. The stomach of the unterrified Democracy has discovered a disposition to refuse political crow, unless it is to be spiced with better results than it was at the Pennsylvania and Ohio feast.

He Fails to Respond.

We clip from the *Puget Sound Courier* the subjoined correspondence, from which it appears that Judge McFadden, Greeley candidate for Delegate to Congress from Washington Territory, conscious of the weakness of his cause, dares not engage in a free discussion, allowing both sides a hearing:

OLYMPIA, W. T., Oct. 25, 1872.

HON. O. B. MCFADDEN, Democratic candidate for Delegate to Congress—*Sir*: I have been instructed by the Republican Territorial Central Committee, to ascertain whether you will consent to canvass with Gov. E. P. Ferry, and divide time with him at your several appointments, beginning on Monday next, and continuing until the close of the campaign.

An early reply is respectfully requested.

I am, very respectfully,
Your obedient servant,
SAMUEL COULTER,
Ch'n Central Com.

OLYMPIA, W. T., Oct. 26, 1872.

TO SAMUEL COULTER, Esq., Chairman of Republican Central Committee—*Sir*: Your note of the 25th inst. is before me, requesting me to divide time with Gov. E. P. Ferry, in my appointments for public speaking on Puget Sound, beginning on Monday next, and continuing until the close of the campaign.

Mr. Garfielde, before I had the honor of being designated as a candidate by the Convention of the 2d inst., had personally canvassed the whole of the country east of the mountains, and at the present time has personally canvassed a large portion of Puget Sound. My canvass east was on the Columbia river has just closed, and leaves me but little time for public speaking before the day of election; and as myself and friends will occupy all the time at my appointments, I am constrained to decline your request.

Respectfully, your obedient servant,
O. B. MCFADDEN.

A cause that will not bear the light of discussion, is a bad cause. It would be a safe rule to lay down for the guidance of one's conduct in all matters of importance, that whatever seeks the darkness is evil. If Judge McFadden is not willing to be tried by the test to which it is customary to subject candidates for the position to which he aspires, he cannot complain if the voters of the Territory pronounce against him all the more strongly. Whether he permit discussion, or refuse to permit it, there is, from all we can learn, no probability of his election; so he might just as well have saved himself from the imputation which his conduct in this matter has cast upon him.

Draw Your Own Conclusions.

Through a more sparsely settled region than Oregon, over alkali and sage plains, over the high grades of the Sierra Nevadas, heavy freight can be carried *by railroad* all the way from Ogden to San Francisco for $10 per ton. We take the following from the San Francisco *Commercial Herald*:

> On the 15th of the current month the Central Pacific Company decreased its freight charges between San Francisco and Ogden to a lower figure than the merchants of Utah ever dreamed of; and this has been done to promote the interests of San Francisco by enabling her business men to enter the lists on equal or better terms than those of St. Louis and Chicago. We have frequently taken occasion to enumerate and specify the thousand and one benefits that this State and city have received from the Central Pacific railroad, while those who have recklessly assailed that corporation have dealt only in vague general charges, brutally enunciated, and without one particle of genuine foundation. * * * * The Central Pacific depends wholly upon California for its traffic. All that it receives, going east or coming west, either proceeds from or comes to California. It is then clearly the interest of that road to promote these of this State and of its great commercial metropolis. In exact ratio with the growth and expansion of our business will be that of the railroad; and it may be considered as settled that the directors are not so vacant-headed as to cripple their own chances of prosperity.

The Salt Lake *Herald* alludes to this important concession in the following terms:

> But the most important reduction is in the matter of ore and base bullion, which from and after to-day will be carried from Ogden to San Francisco at $10 a ton, or $100 a car load. When the excitement was created more than a year ago by the increased freight rate adopted uniformly by the two Pacific Railroad companies, the lowest figure which miners, mine owners, and bullion and ore shippers talked of did not reach a smaller freight rate than the Central Pacific Railroad now voluntarily names. This reduction, if continued, will enable many mines to be worked which a rate of fifty per cent. higher would render comparatively valueless under existing circumstances. And we look for an impetus being received by such mines from this action of the railroad company, and a large increase to the traffic of the line as a result of the reduction of the freight tariff.

Take these figures, compare them with what you have to pay for freights in the Willamet valley, and draw your own conclusions.

The effect of the *Credit Mobilier* scandal, which has been so persistently kept before the public by the Greeley press, notwithstanding it was proved by their own witnesses to be absolutely false, is seen in the unanimous renomination of Hon. Henry L. Dawes by the Republican Convention of the 12th Massachusetts District. Perhaps, after all, it is a benefit to a man's reputation among honest people, to be maligned by the Greeley organs. They lost no occasion to abuse Hon. S. Garfielde, of Washington Territory, and the result was exactly the same as Mr. Dawes' case.

The Society of the Army and Navy of the Gulf, held its annual reunion at New York City, on the 17th instant. A magnificent banquet was spread at the Metropolitan Hotel. Admiral Thatcher presided at the table. Among the officers present were Gen. McDowell, Gen. Sargent, Gen. Molineaux, and others. Gen. Sargent responded to the toast, "The President of the United States," pronouncing a handsome eulogy upon Gen. Grant, which was well received. The affair was a grand success in every respect.

A Handsome Speech.

General Hartranft, Governor elect of Pennsylvania, was serenaded on the evening of the 18th inst., at his home in Norristown, and responded in the following speech, which we consider a model for neatness:

> MY FRIENDS AND FELLOW-CITIZENS: Your presence and your kindness overwhelm me. The answer of my friends and neighbors, who have known me all my life, has been the highest reward of my career. I thank you for the hearty welcome you have given me, on behalf of the great Republican party, whose standard was given into my hands. I am glad that I belong to that party, for it has nobly vindicated its principles, and has shown that it can not be seduced from its integrity by either newspapers or politicians.
>
> We have fought a good fight and won a great victory. It now becomes my duty to see that the true men who stood by our colors shall have no reason to regret that they supported me. I fully expected to meet the fair and open opposition of my opponents, but I was surprised that their chief weapons should be falsehoods and forgeries, and their chief witnesses bad men whom it had become my duty to prosecute. During the canvass my lips were sealed, but now that I am at liberty I promise that, as I have already incurred their enmity, *I will not rest until the money they confess has been taken from the treasury has been restored.* This victory has given us a united party. A few men, who assume to be leaders, deserted to the enemy in the heat of the battle, but no one followed them, and their going has given us peace and harmony.
>
> One of them now pretends to be for Greeley, another pretends to be for Grant, and another pretends that he don't know whether he is for Grant or Greeley. But one thing is sure—these men stepped outside of the Republican party in order to defeat it, and, so far as I am concerned, they shall stay out, or if they repent, they must go to the rear, and not assume to try to be leaders. I have tried for several years to do my duty while in an office to which I was twice elected by the people with large majorities, and as these people, by a still larger majority, have said that I shall go up higher, I still intend to do my duty, and thereby continue to deserve your confidence and good wishes. Gentlemen, I again thank you for the honor you have conferred upon me.

The dispatches announce the death of the wife of Horace Greeley. She had been out of health for several years, and for some weeks past her death has been expected almost daily.

THURSDAY MORNING, OCTOBER [illegible]

CITY.

STREETS.—In consequence of the late condition of Hall street, between Front and [illegible] streets, is reported to be impassable. It has recently been filled in.

A new sewer is being laid at the intersection of First and Washington, connecting with the sewer which reaches to the river.

The work goes bravely ahead on Front street. This street will be completed to College street by the last of November.

North Second street is now being filled in. Columbia street, between Fourth and Fifth, will soon be planked.

A new sidewalk is being constructed in front of the store of E. Milwain, on First street. First street looks neat and clean. The street car track has been laid. The track is laid beyond Lincoln street, and the cars are running in a few days.

IMPROVEMENT NEEDED.—The corner of Fourth street at its intersection with Washington should be improved and the track above planked. A space is left which unless filled may result in a damage suit against the city. The other evening a gentleman was driving a valuable horse down Morrison street and Fourth. Supposing the track was planked, he drove rapidly ahead. When very near the crossing he perceived the condition of things. He instantly reined the animal in, but not in time to save it entirely. One of the horse's feet slipped between the planks and was not extricated without injury to the safety of the limb and some injury to the horse. The driver states that had he not seen the hole as he did, the horse's legs would certainly have been broken, or the animal crippled. A little expense might save much trouble.

MOTION ARGUED.—The motion for a new trial on behalf of Frank Tompkins and [illegible], who were convicted in July last of robbing [illegible], was argued and submitted yesterday in the District Court, by H. T. Bingham, Esq., in support of the motion and A. C. Gibbs, U. S. District Attorney, contra. The grounds of the motion are as follows: That the verdict is contrary to evidence. That the court erred in admitting the testimony of H. Moppin and J. Atterbury in regard to confessions, so-called, of the defendants. That the court erred in instructing the jury that such confessions was before them for what it was worth. The arguments were mainly upon points of law, and were composed to a great extent of extracts from legal authorities. His Honor, Judge Deady, has the matter under advisement.

RUMORED OPPOSITION.—We have it from authentic sources, that Capt. Wright, of San Francisco, proposes to have in readiness within three weeks a first class steamer, which is intended as an opposition vessel to run between Portland and that port. The steamer *Stewart*, now being overhauled, is in a running condition in about two weeks, and will ply on the upper and lower rivers, and connect with the opposition steamer. Should these reports have foundation, it is to be hopefully expected a reduction in the present freight and fare. A lively competition would possibly result otherwise than beneficial to the State.

OIL PAINTING.—A handsome oil painting may be seen at the front window of Snowden's store, representing a view of the Columbia river, near the Upper Cascades, and the surrounding scenery. The scene is from the brush of Mr. Thatcher, a young man well known in this city, who has painted the sketch some weeks since in San Francisco, at which place he is studying under two eminent painters—a landscape and a marine artist. The work is very handsome, and not only reflects credit on the young artist, but evinces true art and a fine conception of the beauties of nature. The picture, including frame is 40x30 inches.

ACKNOWLEDGED.—We are in receipt of the proceedings of the Twentieth Annual Convocation of the Protestant Episcopal Church in the Missionary Jurisdiction of Oregon and Washington Territory, held in Trinity church, Portland, on the 20th, 30th and 31st days of last August. It is a neat pamphlet of 67 pages, printed at the book and job office of Himes & Bachelder, and contains all of the statistical matter connected with the church embodied in the proceedings has been published before.

U. A. O. D.—The following are the officers of Clean the Grove No. 4, United Ancient Order of Druids for the term ending April 1, 1873: Ward S. Stevens, N. A.; H. R. Leonard, V. G.; William T. Webber, R. S.; Robert D. Wasson, Treasurer; William Abernethy, I. G. The installation of the above officers will take place on Monday evening, Nov. 4th, 1872, on which occasion the members of sister Groves and sojourning brothers are invited to be present.

TOWED AWAY.—The steamer *Emma* [illegible] was receiving a cargo of wheat during the forepart of yesterday at the east side wharf. She had on board about 100 tons. In the evening the *Siren* was taken in tow. This vessel will proceed below the St. Helen's Bar, when the *Siren* will transfer her cargo to the *Siren*, and return to this city for another load, which is thought will complete the ship's cargo.

SHOOTING AFFRAY.—We learn the particulars concerning a shooting affray that occurred Tuesday evening at Oregon City, to the effect that the night watchman at that place, had some difficulty with a man named Jacob Wolf. High words followed when both drew their guns. The night watch discharged his weapon, and the Northman in turn fired at his adversary, but took effect.

UPPER RIVER.—A large quantity of rock, etc., was taken up the river this morning from a point on the Upper Columbia. The steamer *Siren* also carried away 15,000 feet of lumber, ropes, etc., will be used in various ways by H. Montgomery in the improvement of the channel of the river, and the lumber is designed for the construction of snows to be employed for [illegible] purposes.

INSPECTED.—The steamer *Vancouver* was inspected yesterday by James Lotan and Alexander Flanders. The hull was found to be in good condition and the boiler was subjected to a hydrostatic pressure of 150 pounds to the square inch without starting a bolt. The certificate of inspection was renewed.

BOILER REMOVED.—The old boiler and engine which has so long furnished the motive power to drive the well known ferry boat against the swift current, at the Stark street ferry, is being removed from the hold of the craft, and the hulk is fast going to ruin, to the rear of the Commercial block.

CERTIFICATES RENEWED.—The inspectors of the boilers and hulls of the O. S. Co.'s steamers *Ivanhoe* and *Olympic*, by inspectors James Flanders and Captain Flanders, last Monday, pronounced them in good condition, and certificates were renewed.

ATTENDANCE OF LADIES.—A number of ladies were in attendance last evening at the temperance meeting, speaking at the Court House, a fact which was highly gratified to note. A most cordial invitation was extended to the ladies to lend their presence to the rally this evening.

MACHINERY, ETC.—A portable hoisting engine, a hydraulic ram, and other machinery was sent up on the Dalles boat this morning, consigned to Crane & Co. This machinery will be used in connection with the mining operations in Eastern Territory.

LARGE GLASS.—Several large plate glass fronts on the last steamer, which will be used for show-windows of the new building just erected by Askey's market. The size of the glass is 8½ inches, and five-eighths in thickness.

SUBMITTED.—After two days trial the case of Bird, charged with murder, was submitted to the jury yesterday morning in the District Court at Vancouver.

NEARLY FINISHED.—The new foundation which is being built under the stone wall of St. Mary's Academy, on Fourth street, is nearly completed.

Moved and carried that the Committee on Correspondence be empowered to call a convention of the C. of R. C. when the same becomes necessary, requiring delegates to be elected for the same and fix the time and place for said meeting.

On motion, the Secretary was requested to prepare a copy of the proceedings of this Convention for publication in the city papers and the *Echo*.

On motion, a vote of thanks was extended to Eureka Encampment No. 1, for the use of their hall, and courtesies by the members.

On motion, adjourned *sine die*.

J. M. BACON, Chairman.

R. H. HEWITT, Secretary.

ORGANIZED.—The Grand Encampment of the Independent Champions of the Red Cross was duly organized by George Bloomfield Taylor, Supreme Commander, Originator, Author and Founder of the Order, yesterday in this city. The following is a list of the Grand Officers composing the Grand Body: Grand Commander, C. E. Burrows, of Salem; Grand Counsellor, F. Perry, of St. Helens; Grand Secretary, E. P. Smith, East Portland; Grand Treasurer, F. Skinner, of Portland; Grand S. Champion, Mrs. Stearns, of Portland; Grand Chaplain, J. M. Scott, Columbia Slough; Grand C. of Host, Charles Stewart, of Portland; Grand J. Champion, Miss Woodcock, of Monroe; Grand M. of C., Miss Wilcox, of Portland; Grand Sentinel, Mrs. Perry, of St. Helens. This morning at 9 o'clock A. M., the Grand Encampment will hold a session in Nonpareil Hall, in this city.

GRANT AND WILSON RALLY!—This evening there will be another grand rally of the Republicans at the Court House at 7:30 o'clock, as announced by the County Central Committee in another column. W. Lair Hill, Esq., of Multnomah, and Hon. Rufus Mallory, of Marion, will address the citizens at the Court House this evening. Mr. Hill is well known in this community as a finished and agreeable speaker, and one well versed in the questions now presented in this campaign. Mr. Mallory, ex-Congressman and Speaker of the House in the last Legislature, is a gentleman of fine culture and superior forensic ability, a finished orator—in fact a man possessed of great eloquence, second to none in the State. Let there be a full house. East Portland Band will be in attendance.

THE SPEAKING.—The announcement made yesterday that the Hon. J. N. Dolph would address the meeting at the Court House last evening, drew out a large crowd. The meeting was called to order by the Chairman, Mr. Malarky, and Mr. Buchanan, a young attorney, was introduced to the audience, who came forward and made a few remarks on the coming contest. Mr. Buchanan made a very neat, clear and logical exposition of the principal issue of the canvass. His remarks were frequently and heartily applauded. At the conclusion of Mr. Buchanan's speech, the regularly announced speaker of the evening, Mr. Dolph, was introduced. This gentleman delivered a characteristic speech, which for power, vigor and logic, was fully equal to any which we have heard during the campaign. Speaking again this evening.

QUERY.—Who shall decide when doctors disagree? This is about as difficult as to tell from our standpoint on the outside, who are the real genuine A No. 1 Champions of the Red Cross in our city. It seems that there are several who claim to be regularly entitled to the belt. The Anti Taylors seem to be in the majority.

ONE VESSEL.—We are informed that the report of two vessels being seen off the bar, is incorrect. One vessel was observed last Monday steadily off, but on the tug *Astoria* going out to tow her in, it was discovered that the vessel was too far away, being clear beyond the limits of the tug.

IF BEAUTIFUL SOCIETY beautiful teeth are always admired, and can be had by using Lyon's Tooth Tablets.

Hogg proposes to start for England about the 1st of December. From his intimate personal acquaintance with the resources of our State, and the favorable opinions he has expressed, we may expect to hear good reports of Oregon and her manufactures from the Old World.

Some important information to the ladies, given by Miss M., will be found in our advertising columns.

AMUSEMENTS.

Another crowded house witnessed the reproduction of "Early California" last evening at Odd Fellow Theater. This play will be offered this evening for the last time. Do not fail to attend.

THE Locks Bill, Water Works Bill, Litigant Bill, Police Bill, and other bills, are attracting general attention throughout the State. You can do no better than buy a bill of goods at J. Need anything more be said? No! The place is 93 First street.

EPICUREANS will find at Stalls Nos. 10 and 11, Central Market, a very choice lot of game, fish and poultry. Quinn, who continues to dispense these luxuries at the Union Market, Washington street, presides over these Stalls, and that is all that need be said to induce every one to call.

VERY little time remains for you to decide whether you are going to vote for Grant or Greeley. This, however, need not disturb your mind in the least, as you will certainly decide the moment you gaze upon that elegant stock of new fall and winter goods lately opened at 91 1st & Roberts', to have them take your measure for a suit. While there, examine the latest styles in gentlemen furnishing goods. Youths can be accommodated with neat-fitting suits at this house.

The old saying is, "What everybody says must be true," and everyone says that Beck & Waldman have the largest and best selected stock of the latest styles and patterns in gentlemen's Clothing and Furnishing Goods in the city of Portland. They have the largest variety of Boy's, Youth's, and Children's Clothing which will be sold according to the times. Please call and satisfy yourself that we will not be undersold by anyone.

Criminal Imposition.

A foul bill substituted for a good one is simply a loss to the pocket of the taker, but a poisonous slop substituted for a life-sustaining medicine imperils the health of those who imbibe it, and the man who connects, or sells, or recommends such an article is a criminal imposter, and deserves to be visited with a heavier penalty than if he had counterfeited gold pieces or forged bank bills. Many vile, unwholesome potions now being offered for sale in various parts of the country, as "tonics" and "restoratives," are recommended by their dishonest proprietors and vendors as superior to the famous national specific, Hostetter's Stomach Bitters. Desperate attempts are made to thrust these pernicious compounds into the hands and down the throats of life-long patrons of the great vegetable stimulant and stomachic; and although these conspiracies against health and life very rarely succeed, it nevertheless seems to be a duty occasionally to warn the credulous against them. Hostetter's Bitters, the unequalled remedy for casual indigestion, confirmed dyspepsia, biliousness, liver complaint, malarious fevers, constipation, constitutional weakness, and the functional derangement of the weaker sex, has for twenty years stood at the head of all medicines of its class—so far above them as to render competition futile. It has not yet reached the meridian of its popularity, its salesbeing larger now than at any period since its introduction. Its utility as a preventive of disorders, engendered by an unwholesome atmosphere or unwholesome water is admitted by physicians practicing in unhealthy districts, and it is recommended as a stimulant by many practitioners who will not take the responsibility of prescribing the adulterated liquors of commerce.

PLANTATION BITTERS!

S. T.—1860—X.

This wonderful vegetable restorative is the shoot-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

The Old Man Goes for Grant

BY JOHN H. YATES

We've had enough in meetin' at the school house on the hill,
And cussin' for Grant and Wilson were given with a will,
There were young men there and maidens, there were gray haired men and boys,
And songs for Grant and Wilson fill'd with melody the air.

We came to the conclusion in locking matters over
That *good* old Horace Greeley and the *Tribune* were a mover,
The Presidential siren sang a very pretty song,
And Horace put his white hat on and followed her along.

But he took the wrong road, Betsy—a new untrodden road,
The good things he has said of Grant will prove a heavy load,
But of all the fools he carries the heaviest will be
The load strapped on at Baltimore, called "cast off company."

We're all poor creatures at the best and apt to go astray
When great temptations find our path and whisper us come that way;
My faith in human goodness grows weak—does' almost fail
When men like Horace Greeley bow down to the knee to Baal.

We've stuck the *Tribune* many years—we farmers 'round the hill,
Once it was law and gospel, but 'tis now a bitter pill,
Because one man leaves principle, and everything, that's good,
It does'nt stand to reason that all we farmers should.

No, Betsy, we go in for Grant, the war-tried, peace-tried man,
Theone who routed rebels can rout this other clan
When Grant went fightin' treason he never meant to fail,
And what he *hooped* the traitor *he didn't go her bail*

Hurrah for Grant! hurrah for Grant!—don't call me crazy, wife,
I'm marching with Ulysses in the Presidential strife.
I can't rot to many more times; my days are nearly through
Hurrah for Grant, the leader of the boys who marched in blue! —*Harper's Weekly*

The Railroad Hog.

"This seat is taken, sir" All persons who have traveled to any considerable extent are familiar with this formula. It tells the story of the railroad hog—the small-souled, mean, selfish brute who pays grudgingly for one seat and strains his small wit to hold two This particular hog wore a plug hat shiny with the genuine Boston gloss, an enameled shirt and closely-cropped iron grey beard. I know his kind. He is an eminently respectable beast who always pays his debts promptly, takes an interest in Sunday Schools, administrates his deceased brother's children of their patrimony, is the president of joint stock companies and has biographical eulogies published in the newspapers when he kicks the bucket.

I knew the hog lied when he said, "This seat is taken, sir," but I found one that was not taken, sir, and watched him to see how many times he would reproduce the falsehood. The coach was rather full and would you believe it, that miserable hog told sixteen separate and distinct lies in order to gratify his mean selfishness. Enough to sink a healthier soul to perdition. He varied the formula, one time it was a wave of the hand and a look to the rear of the car to indicate that the holder of the seat had gone for a drink of water and would be back soon. Another time, to the inquiry of a mild mannered and timid questioner he replied by a stolid stare, and then spreading himself a little wider, he resumed the perusal of his newspaper.

I was tempted to crawl up behind him and hiss into his ear, "You are an awful liar." But I had my revenge. A big red faced two hundred pounder, in a dirty linen coat, came in at a way station. He was sweaty to a fearful degree. His feet smelt like valerinate of ammonia and rotten fish, and his breath was a hot, stinking sirocco, based on bad whisky and onions. This fiery and fragrant behemoth preferred to settle himself in the seat that was taken. "This seat is" began the hog. "Well, I guess I'll take it till the other fellow comes," returned the sweet-smelling heavy weight, and down he plumped, partially crushing the hog in his descent. The latter frowned and began to bluster, but the red faced ruffian soon took that out of him with a threat to swallow him whole—chaw him up and spit him out—to pitch him out of the window—to go through him like a dose of salts, and to make various other dispositions of him in case he didn't simmer down. Our porcine friend simmered, and then the barbarian grew good-humored. He told funny anecdotes, and poked the hog in the ribs. He wanted to know where he came from and where he was going. He spat quarts of tobacco juice across him out of the window, spattering his shirt front, between his boots, and all round. He offered him a chew every time he took out his plug of navy. The hog perspired freely, and shivered with disgust. Finally he crawled out and stood up for forty miles until another seat was vacated.

Two vessels are reported in at Astoria from across the bar.

The steamer *Oriflamme* brought to port 320 tons of assorted cargo.

The steam tug *Astoria* towed the bark *Melanc'hon* out to sea last Monday. She is bound for San Francisco with a cargo of lumber.

The steamer *California* sailed last evening for Victoria and way ports with a fair freight

The steamer *George S. Wright* is due at this port from Sitka.

It has been well said that when civil engineers are called upon to mark the boundaries of a tract of land according to deeds duly authenticated and recorded, the first and all-important point to be determined always is the exact place of beginning to which the document refers. If a mistake is here made, the survey is worse than useless, leading to unpleasant complications and vexatious and expensive litigations. It is also a fact that, in order to administer in cases of sickness to the benefit of the patient, the physician should have some knowledge of the disease, and also of the medicines which may be serviceable. The work of a novice, whether as engineer or physician, must always prove detrimental The same principle holds equally good in other departments, whether of agriculture, manufactures, commerce, or governmental management of financial matters. Mere "quacks" in finance prescribe resumption of specie payments as the cure-all for the difficulties which press so heavily upon the industries of the country, while history plainly teaches, if studied aright, that a gold basis for a paper currency, wherever introduced, has always been the bane of the commercial, manufacturing, and, we might add—with a view of covering all—the agricultural interests of the land. An engineer might as well, in making a survey, take as his place of beginning a floating ship, or a physician prescribe salt and no water for a fever patient, as a political economist build upon gold as a *standard* of value Hence it is with no small degree of pain we notice that comparatively intelligent men ask for a return to gold (or merchandize) currency We are ready to admit, however, that the stride made in civilization from the time cowry-shells, cut-nails, tobacco, etc., were used—a few short years since—as currency, is most important and gratifying; but we are not satisfied to stop here, while there is yet a vastly better currency to be had.

Many able financiers hold that a system somewhat similar to that according to which the Bank of England is controlled, with the feature of a changeable rate of interest, as well as one or two others of minor importance, would be better than our National Banking system, while others contend that a currency issued by the Government without the intervention of any banking corporation, the same made a legal tender, and exchangeable at pleasure for Government bonds, bearing a fixed rate of interest and payable on demand, would, however, be better than either. But still it is seriously doubted whether the experience of the country during the past six years ought not to impress the public mind with confidence in our present system as one not to be set aside for light or trivial reasons, or substituted by another untried by experience or well authenticated by the knowledge of the ab est financial wisdom of the age The people of the United States have just reason to congratulate themselves upon the fact that these matters have been so managed that no great signal monetary disaster has come upon the country Financial pressure, tightness and severe'y felt stringency, it is true, have at times been experienced, but coming out of a war which taxed so heavily every resource of the nation, there certainly has been displayed eminent financial ability in the administration of our Government upon the Money question, and the people are warranted by the past in trusting the matter in the same hands for another term

Eastern advices by mail to the 19th October, and California dates of the 20th, would seem to indicate a little more ease in finances, though, some doubts are expressed as to the relief being of a permanent character The *Commercial Herald* of the 25th inst. says the financial condition of Germany just now presents a very interesting question Over and above all its expenses incurred by the war with France, it will receive, before the summer of 1874, the enormous amount of eight hundred and sixty three millions in gold The aggregate of the indemnity money is one thousand one hundred and forty one millions, of which five hundred and eighty millions have been paid, leaving five hundred and sixty one millions yet to be liquidated. No nation in the annals of history ever received such enormous indemnities for a war, which in this case only lasts six months To this amount must be added the rich, populous and industrious departments of Alsace and Lorraine The Germans have always been noted for their frugality and the extreme cautiousness many exhibit in their financial operations. No people were ever more free from the speculative and daring tendencies which have at times characterized the Englishman, and which seem to be the normal condition of the Americans They hold on to their coin and used their money with remarkable care and circumspection The sudden influx of such enormous sums seems to have produced with them the same results which have always attended a period of excessive monetary ease in other countries It has created a disposition to speculate, and the Germans have recently been investing in all sorts of fancy stocks and "wild cat" operations at which they would have revolted prior to the war, and the result is a general depression in business, with monetary stringency for the time being The aggregate war debt including the indebtedness for 1871, was only a little short of $4,000,000, of which $440,000,000 have already been paid, having a balance of only $3,560,000,000 to pay This refers solely to the Federal debt of Germany and does not include that of all the States, the entire public debt being $840,450,000 But the indemnity money will be distributed among the several States, after certain general expenses have been liquidated and these amount to $540,000,000, which will leave $900,000,000 cash for distribution, and will cover a large proportion of their respective debts Whether the Imperial Government will divide the money as fast as received or allow it to be distributed at once, is a matter for conjecture; but as no distribution has yet been ordered that event may be delayed as long as possible, or until such time as the monetary stringency caused by locking up such enormous sums shall compel the Government to let it filter into circulation. The German banks and large amounts invested in American securities, and should stringency be forced upon them at home, they may be compelled to seek relief by returning par bonds, or realizing upon their investments, which, in either case must call for our gold

It is reported that the San Francisco and North Pacific Railroad Company have mortgaged their road to Philo C Calhoun and Eugene Kelly, of New York, for $10,000 000

Three hundred thousand dollars of melted coin from the works of the America, have been received at San Francisco.

The stock of the Pacific Mail Steamship Co., is now quoted in New York at 101.

One hundred ships have been loaded with grain at San Francisco since July 3, and the average is now about one of 1 000 tons per day

There are twenty five vessels on the berth at San Francisco with an aggregate tonnage of 24,000

The amount of wheat reported as received at San Francisco from Oregon, from January 1st to October 25 this year is, 90,740 centals, or 151,233 bushels, of the value of $146,184 00

15,800 thousand packages of teas, silks and spices from China and Japan, have arrived at San Francisco, and will go overland to New York

It is said there are many thousand tons of Wheat and other grain yet exposed in the San Joaquin and other valleys. Cords of it piled up for miles along the railroad track still remain, waiting for the rail cars to come and convey it to a place of safety.

The exports of Treasure from San Francisco, from the 1st of October to the 23d, amounted to $1,874,347 11.

The Lumber trade on this coast and of Puget Sound is greatly crippled by the scarcity of tonnage and high freights prevailing. The local demand for Oregon pine in San Francisco, and redwood Lumber is good for the season

The duties paid at the San Francisco Custom House, from January 1st to October 23d, 1872, were $6,872,765, being an increase over the corresponding period of last year of $730,014 63

The *Commercial Herald* of San Francisco says On the 24th of October, "the official exports of Treasure from January 1st to date have been as follows

Total since Oct 1st 1872	$ 1,574,348 11
Previously this year	25,041,424 73
Total since January 1st, 1872	$26,615,773 84
Corresponding period, 1871	14,773,453 92
Increase this year	$11,841,822 92

The above table does not include the amounts of treasure sent through the United States mails

The late European advices state that H. Kuhn Jackson, an eminent authority, places the deficit of the European Wheat harvest at 29 per cent of the usual yield, and estimates that the foreign Wheat requirements will be ten to eleven million quarters, or 80,000 000 to 88,000,000 bushels. For the supply of this amount he looks to the following sources

California, qrs	1,250,000
U. S Atlantic Ports	2,250,000
Russia, South and North	2,000,000
Germany and via do	2,000,000
France	2,000,000
Turkey and Egypt	750,000
Spain	750,000
Canada and other colonies	500,000
Other countries	1,500,000
Total	12,000,000

California has already forwarded one-third the amount she is put down for, and her contribution will probably exceed 1,250,000 quarters. Mr. Jackson assumes that Spain and France have an abundant crop; that Germany has of Wheat and Rye an average crop; that Scandinavia has a good crop of Wheat, Oats and Barley; that the United States, including spring sown Wheat, have a full crop, and a large one of Corn; that California has grown more wheat than ever; and that Hungary, Central Europe and Russia have a middling crop. From the above estimates it appears that the United Kingdom is the only country that is largely deficient in the principal food crops; and as other countries have a large surplus, all fears of a famine or of extreme prices are groundless.

The movement in Wheat is the chief topic in our market to-day. It is truly said to be [illegible] the malpraising of business and for this to our inland steamers and coasting fleet all the business they can do, at the same time enriches the farmer that produces the grain, and sets in motion thousands of labor saving machines, and gives employment to an army of laborers, teamsters and others scattered up and down the coast and through our valleys. In this staple we have no changes to note. The receipts so far this week have been fair, but will hardly average with the first three-fourths of the month. This is attributable chiefly to the bad weather, and the depression in foreign markets In our daily issue of the 20th the printer mistook an "8" for a "3" and made our quotations just 50 cents per cental too much, $1 85 per hundred being about the average rates.

Our regular dispatches from San Francisco as published this morning note commercial matters in that city thus

Twenty vessels are now loading Wheat for Liverpool. The last ship that cleared here for loading Wheat was engaged at £4 6s 9d per ton, a reduction of about $1 a ton on rates of freight hitherto prevailing

The Sugar refineries to-day marked their Sugars down half a cent per lb.

All of the $500,000 in gold notes of the National Gold Bank and Trust Company are in circulation.

Thirty Wheat cargoes have cleared this month, and six more are ready to sail.

No visible effect of these events are noted in our home market.

Other than Wheat, the receipts of the week have been only fair, and for Oats, Barley, Potatoes and dairy products the demand is fully as great as the supply, and rates, though not appreciating, are firm. Vegetables and Fruits are abundant and prices weak
